

## International Conference on Electrical and Computer Engineering Researches

# CALL FOR PAPERS

The International Conference on Electrical and Computer Engineering Researches (ICECER) is a premier global forum that brings together leading researchers, academics, engineers, and practitioners in the field of electrical and computer engineering. This annual event serves as a platform for the exchange of cutting-edge research findings, innovative ideas, and technological advancements in a wide range of topics, including but not limited to power systems, control systems, communications, signal processing, computer networks, and artificial intelligence. ICECER provides a unique opportunity for participants to engage in collaborative discussions, share their expertise, and explore the latest trends and challenges shaping the future of electrical and computer engineering researches on an international scale. With keynote speakers, paper presentations, and interactive sessions, ICECER fosters a dynamic and inclusive environment, encouraging interdisciplinary collaboration and fostering the growth of the global electrical and computer engineering community.

### Topics of interest for submission include, but are not limited to:

- 3D Modelling
- Adaptive Control
- Antennas and Propagation
- Applied Mathematics
- Artificial Intelligence
- Automation
- Big Data/Data Science
- Bioinformatics
- Biomedical Circuits
- Blockchain
- Circuits and Systems
- Cloud Computing
- Communications
- Computer Engineering
- Computer Vision
- Control Systems
- Cryptography
- Cyber Security
- Data Science
- Deep Learning
- Distributed Computing
- Electric Machines
- Electric Vehicles
- Electronic Measurements
- Embedded Systems
- Energy Harvesting
- Energy Storage
- Fuzzy Systems
- High Voltage Engineering
- Human Computer Interaction
- Information Security
- Internet of Things
- Machine Learning
- Mathematical Modelling
- Mechatronics
- MEMS, NEMS
- Microelectronics
- Mobile Communication
- Networks and Security
- Neural Networks
- Optimization
- Photovoltaic Systems
- Power Electronics
- Probability and Statistics
- Renewable Energy
- RF and Microwave Circuits
- Robotics
- Signal and Image Processing
- Smart Grid
- Smart Systems
- Software Engineering
- Solar Energy
- Unmanned Vehicles
- VLSI Circuits
- Web Applications
- Wireless Communication
- Wireless Sensor Networks

### Full-Text Paper Submission Deadline

~~15 July 2024~~

**12 August 2024**

### Notification of Acceptance/Rejection

16 September 2024

### Early Bird Registration

23 September 2024

### Late Registration

21 October 2024

### Final Paper (Camera Ready)

Submission

28 October 2024

### Conference Dates

**04 - 06 December 2024**
